- **Admin time**
  Read once to understand it, read again if the code was wrong.
- **Coding gaps**
  An uncoded letter is invisible to recall and to the next clinician.
- **Delay**
  A result in an inbox is clinically the same as one that never arrived.

- **Minutes per letter**
  before versus after
- **Codes accepted**
  share a clinician keeps unchanged
- **Recalls closed**
  by day 30, not next month
